# Marshall Cavendish Education My Pals are Here! English (International) 2nd Edition

My Pals are Here! English (International) 2nd Edition is an exciting six-level series for young learners aged 7 to 12. Drawing from both first and second language learning methodologies, the series contextualises learning and recycles language elements with increasing levels of difficulty to nurture competence and confident communicators.

Fully updated and packed with new features, this edition builds on the successful formula of the first. Taking the learning outcomes from international syllabi, the series prepares students for both national and international examinations.

# Marshall Cavendish Education My Pals are Here! Maths

4th Edition

My Pals Are Here! Maths (4th Edition) is a fun, easy-to-use and student-centric programme that develops resilient, critical and creative thinkers. Based on the latest 2021 Singapore mathematics syllabus, My Pals Are Here! Maths (4th Edition) makes learning fun and instils the joy of learning through pedagogically strong content and activities that help learners achieve success.

Pupil's Book and Workbook eBooks now comes with auto-marking to help teachers save time on marking. Teachers can gain real-time insights into pupils' performance from the data provided from the auto-marking feature in the eBooks.

With enhanced features that support the development of the key focus area in the latest syllabus, My Pals Are Here! Maths (4th Edition) ensures mastery learning so that learners are confident in solving mathematical problems.

# Marshall Cavendish Education My Pals are Here! Science (International)

2nd Edition

This updated new edition of the My Pals are Here! Science International series helps pupils to acquire a deep understanding of scientific concepts by being active in the learning process. The series encourages pupils to experience and explore scientific concepts, while drawing on prior knowledge and reflecting on their learning. In addition, pupils can develop essential process and inquiry skills which enable them to thrive in both science and cross-disciplinary subjects. With the addition of new features, the 2nd edition continues to cater to pupils with various learning styles through a range of interesting activities.

MPaH! Science International is adapted from the highly effective MPaH! Science series, which is the most widely-used primary science programme in Singapore schools. Users of this series have been consistently ranked high in TIMSS (Trends in International Mathematics and Science Study) – an international evaluation of mathematics and science performance.

### B How Are Materials Chosen to Make Objects?

Why is this made of wood?

Why are these made of metal?

Why is this made of glass?

Why are these made of plastic?

Why are these made of rubber?

© 2020 Marshall Cavendish Education Pte Ltd

1. Get pupils to observe the objects on slide 14.
2. Ask pupils the following questions:
  - Why are these objects made of the materials mentioned?
  - What are the properties of the materials that make them suitable for making the objects? (Answer: Wood is hard. Metal is strong. Plastic is waterproof. Rubber is stretchable/elastic. Glass is transparent.)

## About Marshall Cavendish Education

Marshall Cavendish Education (MCE) is a global innovative education solutions provider dedicated to nurturing the joy of learning and preparing learners for the future. We believe the best way to do so is by simplifying learning and listening to the needs of schools, teachers, students, and parents.

We ensure our educational content remains world-class with expert guidance and in-depth research that prepares students for the 21st Century. Learners are provided an accessible and seamless experience that integrates both print and digital resources.

We provide customised end-to-end solutions, with professional development and lifelong learning to help educators and school leaders implement the curriculum.

MCE has worked with ministries, policymakers, educators, and parents in over 95 countries, designing education solutions in 17 languages for Pre-K to Grade 12. We are the only Asian publisher that is an endorsement partner of Cambridge International Education since 2019.
